Rheumatic pains, irregular appetite, frequent headache, chilis and fever, "blues," hot and dry skin, sour stomach, dyspepsia, irregular action of the bowels, nervous irritability, muscular sorrous among the preliminary evidences of com-ing kidney and liver derangements. As the disease develops then follow lame back, swelling ankles, pale face, scalding sensations, the water being sometimes very light and abundant, at others scarce, in sediment, and, under the microscope, in albumen and tube casts. If the de-ranged kidneys are not promptly attended to there is danger of the terrible Bright's Disease—hitherto considered incurable, which is a consumption or destruction of the kidneys-the near approach of which alarming disorder should awaken the liveliest concern, for it soon hurries one into the grave unless prompt-

Disordered kidneys have the unfortupecially the young, to stay away from the new invention of the devil known as the "skating rinks," which is resulting in the moral and physical ruin of thousands of the liver, as indicated if one has, besides the above symptoms, yellow spotted skin, fat covered eye-ball, frontal headache after eating, burning and itch-ing skin, cold extremities, hot head, bad circulation of blood, sick headache nausa, light colored evacuations, constipation, piles, variable appetite and feelings, dizziness, blurred eyesight, liver-cough, ague, chills, fevers, wakefulness at night, drowsiness by day, etc.

These are some of the commoner symptoms as laid down by leading medical authorities, and with them in view one ought not to have much trouble in ascertaining if he is suffering from disorders

sppears in another place in this paper. Skeptical of some of the statements made therein, and at other times by the same persons, we have been led to make a little study of the matter ourselves, with the above result. These diseases prevail among young and old every-where, resulting in terrible and untimely where, resulting in terrible and untimely deaths; they take off more people than epidemics; physicians report death as occurring from such diseases as apoplexy, paralysis, convulsions, heart disease, pneumonia, fevers, etc., when in reality these disorders are often secondary to Bright's disease and would seldom occur where the kidneys in a healthy working condition. Hence, from personal knowl. where the kidneys in a healthy working condition. Hence, from personal knowledge, or from the trustworthy experience of other competent judges, we believe there is no preparation equal to the remedy that is so prominently mentioned elsewhere in this issue, for preventing and curing the dangerous disorders of which we have written. It has had an extraordinary sole is averagined. which we have written. It has had an extraordinary sale, is everywhere commended, the record of its work seems indisputable, its manufacturers are reputed to be men of the highest standing. We hold, therefore, that not to use it, if needed, would be a crime against one's expectable at this
